Stebbing's Car Superstore are one of the largest [Norwich car dealers](#) . I was really impressed with their customer service when looking to get a part exchange valuation on my BMW 1 Series. Stebbings gave me the best price for my car and their BMW 5 Series was much cheaper than competitor dealers and it also had climate control, electric sunroof and Harmon Kardon sound system. Stebbings provided me with a hassle free car buying experience. They arranged cheap car finance, my used car warranty and GAP insurance. I would definitely recommend Stebbings to all my friends looking for their next vehicle.
